# Ark Encounter

a full-scale model of Noah's Ark built to the biblical dimensions (about 510 ft long, 85 ft wide, 81 ft high). You can walk through multiple levels with **dioramas, displays, interactive exhibits, and short video presentations** bringing the Genesis flood story to life with a strong faith-based focus

# Creation Museum

a walk through the biblical narrative from Creation to Christ, told through immersive exhibits rather than a typical “science museum”. It presents the story of Genesis — including Creation, the Fall, the Flood, and the promise of Christ’s return — in a chronological, visual journey tailored to a biblical worldview. Outdoor elements like gardens, nature trails and a children’s zoo
